JLS Not In Our School Week!

Mon, Mar 6- Thu, Mar 9

JLS hosts Not In Our School weeks through this week, devoting time to recognizing and combating discrimination and stereotypes. See the daily themes and activities [here](#) .

What is Not In Our School?

Across the country, students and teachers are sharing stories, joining together and taking action to create safe schools, free from stereotypes, intolerance, and hate. They're part of a movement called Not In Our School (NIOS). For more than a decade, Not In Our School has inspired students of all ages to develop and share innovative ways to resist bullying and promote an atmosphere of acceptance and inclusion. The Not In Our School videos, activities and resources on our website showcase the immense capacity, energy, and creativity of young people who are creating new ways to make their schools safe for everyone. SCIENCE FAIR SCHEDULED: MON, MAR 20!

The JLS Science Fair will be held Mon, Mar 20, 7:00 p.m. in the JLS Cafetorium. Join the entire JLS community for a fun-filled evening of science, with students proudly showing off their work in poster sessions and some fabulous science and technology-related demonstrations. All JLS students are invited to participate. Register [here](#) by Thur, Mar 16.

The Science Fair is a great way for students to develop and apply an interest in science and the scientific method. Participants will exercise their curiosity, approach real world problems in a systematic and scientific way, and apply creativity towards questions that interest them. Students should be hearing more details about the fair from their science teachers, and begin thinking about their experiments. Once experimentation is complete, students will present their work in poster format (poster boards generously donated by Synopsys). Each participant will be interviewed by a JLS parent or other member of our

community, and participate in peer reviews. All student presenters will be able to exchange their peer reviews for a participation prize, and will be entered into a prize drawing for a number of terrific items.

The Science Fair cannot happen without lots of parent (and other community) volunteers, especially interviewers who are willing to listen to students sharing their projects and provide constructive positive feedback during a brief non-competitive, informal interview. Want to help? Sign up [here](#).

In addition to Synopsys, the Science Fair is sponsored by the JLS PTA, and also supported by donations from a number of local businesses.

Questions? Contact [Maria Derrick](#), Science Fair Chair.
